Biography

Dean brings 25 years of service in the commercial property and casualty insurance industry. With a broad background including multi-line claims and loss control experience, his primary expertise is large complex commercial property losses. Dean is involved in estimating, project management, and onsite project monitoring. He has extensive involvement in numerous major loss assignments throughout the United States and has consulted on large complex insurance losses, including airports, apartment complexes, churches, condominiums, hospitals, malls, manufacturing facilities, military bases, municipalities and resort properties.

Beginning his career on the carrier side of the business, he has worked for some of the largest commercial insurers before transitioning to consulting work. Dean has extensive experience working with a wide variety of risks and industries including the public sector across the United States. He has handled high exposure claims in multiple catastrophic events, including earthquakes, floods, hurricanes, tornadoes, wildfire, windstorm, and hail. Dean specialized in construction, inland marine, natural resources, and property. He also has experience in agriculture, aviation, building & construction, entertainment & gaming, habitational, healthcare, historic structures, hospitality, manufacturing, and public and private sector.

In addition, Dean holds both the Chartered Property and Casualty Underwriter (CPCU) and Associate in Risk Management (ARM) designations.
