Portland, OR

Biography

Jennifer Holloway Smith has over 12 years of experience in environmental consulting. Jennifer's experience in industrial hygiene and environmental assessments includes evaluation of industrial, commercial, and residential properties for chemical, biological and physical exposures. Jennifer regularly prepares inspection reports and restoration protocols for mold, bacterial, water, and smoke impacts, and assessment reports for asbestos, lead, and other regulated materials.

Jennifer's experience in toxicology and litigation support includes summarizing and evaluating court documents, medical records, industrial hygiene data, and scientific literature; compiling and evaluating data from contract laboratories; conducting critical reviews of toxicology and industrial hygiene data; and writing scientific reports.
