Salt Lake City, UT

Biography

Beau Howell has over a decade of experience in the restoration industry. He began his career as a technician, managing demolition and reconstruction for fire and flood losses, and later gained valuable perspective as a claims adjuster. This dual background equips him with a deep understanding of insurance processes and fosters effective communication with both contractors and policyholders.

As a consultant, Beau has contributed to numerous catastrophe events, performing on-site inspections and preparing detailed estimates for both residential and commercial claims. He is known for his strong customer service and is committed to maintaining active, transparent communication with clients to help ensure projects are completed on time and within budget.
