

Ibukun Alao

PMP, PMI-SP

Senior Consultant

Department

Delays & Scheduling Services

Email: ibukun.alao@yagroup.com

Locations

Denver, CO

Biography

Ibukun is an experienced Project Management Professional and analytical Planning & Controls Project Scheduler with a proven track record of delivering complex, high-value projects across the construction and aerospace industries. With over six years of experience, Ibukun specializes in the development, management, and oversight of integrated project schedules that align scope, cost, and performance throughout the project lifecycle.

Proficient in Primavera P6, Microsoft Project, Acumen Fuse, and advanced Excel, Ibukun provides a wide range of scheduling services, including baseline development, critical path analysis, earned value management (EVM), and resource leveling. His background spans large-scale infrastructure projects, scientific programs, and aerospace systems—industries where precise coordination and compliance are critical.

Ibukun also brings deep expertise in claims analysis, schedule impact assessments, and forensic delay analysis. He supports dispute resolution and time entitlement reviews by partnering with project controls, legal, and executive teams to evaluate delays, assess disruptions, and prepare defensible documentation and expert-level reports.

From pre-construction planning to recovery strategies, Ibukun emphasizes transparency, accountability, and actionable insights—helping teams mitigate risk and meet key delivery milestones.
